## Artsy Nine Patch

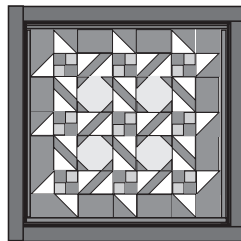

### Six Hour Class

Final product from class could be a wall hanging or a child's drag around quilt. It may not be a work of art, but the class will give you the design information to use in future projects that can be as artsy as you want them to be. Each one will have a totally different look because of layout options, fabric choices and embellishment opportunities!

## STARS & 1/2 Square Possibilities

### Six Hour Class

During class you will construct a wall hanging or table runner/topper. Instructions for various sizes will be available at end of class. A secondary project will be the surprise result of a construction technique used while piecing.

## Free Motion Quilting:

## Made Easy with Nancy

### Six Hour Class

You will learn several different approaches to free motion quilting in this 6 hour class. The free motion quilting not only holds the three layers of your quilt together but the designs add depth to your quilt and another level of visual beauty. This is a no-stress class which will allow you the opportunity to experience success with free motion quilting.

## Paintstiks

### One Hour Demonstration

A great introduction to paintstiks and their possibilities. Along with a lot of information and ideas you will also see a demonstration on how to use the paintstiks.

### Three Hour Class • PLAYING WITH PAINTSTIKS

You will be introduced to paintstiks and all their possibilities, along with a lot of information, ideas and samples. You will be able to try your hand at rubbings and stencils and just play with all the possibilities.

### Six Hour Class • PLAYING LONGER WITH PAINTSTIKS

Applique with paintstiks? This is NOT an applique class. This is for anyone wanting to apply layers of color and texture to the top of your quilts or to a fabric piece. The paintstiks will allow your base fabric to shine through the stencil you use. You will make and use your own freezer paper stencil. Come prepared with ideas!

## Thread Calligraphy Technique Class

You can learn from the person who developed the thread calligraphy technique! Some free motion experience is strongly recommended. Nancy will teach you how to set up your workspace, prepare your fabric and begin to do your own writing in thread. This thread calligraphy technique can be done using calligraphy or any lettering style, so don't feel that you have to do calligraphy! This technique is simple to do yet yields elegant results!

### 3 HOUR CLASS

Nancy is able to teach a class to help others develop and fine tune their skills for Calligraphy with thread. A 3 hour class teaches the thread calligraphy technique (no finished project). Student will learn calligraphy and script using the thread calligraphy technique. This is a technique only class.

### 6 HOUR CLASS

The 6 hour class is more in-depth coverage of the thread calligraphy technique. Students will learn the basics of calligraphy, script, and how to reproduce computer fonts and someone else's handwriting. Students will learn the thread calligraphy technique using different stabilizers as well as a variety of fabrics which include: fleece, flannel, t-shirt and terry-cloth (using a small towel). The student may end up with a small finished project such as a towel or t-shirt they have done the thread calligraphy technique on.
